SCAN THE WORK

PROFESSIONAL PROFILE

Project delivery and electrical engineering professional with more than 35 years of experience across water, utilities, infrastructure, industrial, commercial, retail and electronic security environments. Recent work includes MEICA optimisation and wastewater asset improvement for United Utilities, coordinating permits, third-party access, RAMS, contractors, surveys, testing and project documentation. Combines practical engineering knowledge, business ownership and site leadership with a clear focus on safe delivery, stakeholder communication and operational outcomes.

THE CV IN PROJECTS

A graphical journey through the work: [juswrk.github.io](#)

Project photographs, motorway reports, Image Systems heritage, SiteGuard/Sentinel development, nationwide rollouts, water assets and MEICA delivery.

CAREER JOURNEY

1989 Security engineering	2000 Image Systems	2000 SiteGuard founded	2009 4SiteOnline M&E	2022 JusWrk rollouts	2026 MEICA + edge AI
--	---------------------------------	-------------------------------------	-----------------------------------	-----------------------------------	-----------------------------------

CORE EXPERTISE

PROJECT DELIVERY Contractors, scheduling, RAMS, permits, stakeholders	WATER & MEICA Pumps, flow testing, NRVs, tanks, MCC and process assets	ELECTRICAL Installation, inspection, testing, power and controls
INFRASTRUCTURE Utilities, highways, rail, operational and live sites	SECURITY & EDGE AI CCTV, access, monitoring, comms and analytics concepts	LEADERSHIP Managing Director, installation and multi-team delivery

RECENT PROFESSIONAL EXPERIENCE

JUSWRK / SITEGUARD / IMAGE SYSTEMS

2026 - Present

Independent portfolio and product development

- Rebuilt the public JusWrk portfolio to connect engineering delivery, project control, Image Systems heritage, SiteGuard custom CCTV and Sentinel temporary-hire pathways.
- Developing practical concepts for mobile towers, Jetson-class edge computing, resilient multi-network communications and use-case-led video analytics.

JACOBS ENGINEERING

Mar 2026 - Jun 2026

MEICA Project Delivery - Pump Optimisation Team (United Utilities)

- Supported delivery of a c. £2m wastewater optimisation programme, contributing to interventions projected to prevent more than 1,000 pollution and spill events.
- Coordinated permits, third-party access, RAMS, pre-starts and project records across operational pumping-station assets.
- Supported flow testing, capacity assessment, NRV replacement, tank cleaning and asset performance improvements, with PLC/SCADA exposure.

ERIC WRIGHT GROUP

Dec 2024 - Feb 2026

Electrical / Project Support

- Supported electrical, infrastructure and refurbishment works across live operational environments.
- Assisted with contractor liaison, inspections, documentation and safe delivery within programme and access constraints.

JUSWRK LTD

2022 - Sep 2024

Site / Project Manager

- Managed national retail and M&E rollouts across seven teams and approximately 27 contractors.
- Delivered electrical, shelving, heavy-duty and specialist fixture packages for Sainsbury's, B&Q, Lidl and Screwfix Live.

EARLIER CAREER

4SiteOnline | Director / Electrical Contractor | 2009 - 2022

Operated an NICEIC-approved contracting and online-services business delivering commercial, industrial and retail power, lighting, HVAC supplies, temporary electrics, CCTV, inspection and testing for clients including ASDA, Tesco and Apple UK.

SiteGuard UK Ltd / Image Systems | Founder, Managing Director & Proprietor | 2000 - 2009

Built specialist CCTV, remote monitoring, access-control and temporary-security businesses supporting hundreds of construction, utilities and industrial projects, including AMP water programmes, B&Q developments and ADT upgrade works.

Elite Video Systems | Installation Manager | 1998 - 2000

Led integrated CCTV and security installations across education campuses, national accounts and large industrial sites.

In-Phase Integrated | Security Systems Contractor | 1992 - 1998

Founded a contracting operation with Prince's Trust support, supplying installation labour to major regional alarm and security contractors.

Cheshire Communications Ltd | Apprentice Security Engineer | 1989 - 1991

Installed CCTV cabling, containment and communications infrastructure across stadiums, industrial plants, shopping centres, breweries, warehouses and transport sites.

SELECTED PROJECT PROOF

PROJECT	DELIVERY / OUTCOME
United Utilities pump optimisation	MEICA coordination across wastewater assets; permits, testing, NRVs, tank cleaning and records.
M6 / M62 motorway CCTV	Five concept-to-commissioning roadside schemes, including fibre links and systems of up to 72 cameras.
BT OBASS	Security-system installation across 140 telephone exchanges from Chester to Cornwall.
BP Azerbaijan-Georgia pipeline	Emergency monitoring and two-way communications for inspection work inside a 42-inch pipeline.
Phoenix Chemicals	Process monitoring for a hazardous, corrosive and potentially explosive operating environment.
Knowsley rail freight terminal	Integrated CCTV, perimeter detection and transport-traffic monitoring.
Bassenthwaite Osprey project	Remote nest protection and volunteer-alert monitoring; full heritage case study available online.

QUALIFICATIONS & CERTIFICATIONS

ELECTRICAL & TECHNICAL

- C&G 2391 Inspection, Testing, Design & Certification
- C&G 2392 Fundamental Inspection & Initial Verification
- C&G 2330 Electrical Installation - Levels 2 & 3
- C&G 2382-22 Requirements for Electrical Installations
- C&G 2399 Solar Installation, Design & Verification
- BS 5839 Fire Alarms; BS 5266 Emergency Lighting
- C&G Electronic Security & Emergency Systems Level 2
- BTEC Electronic Principles & Transmission Systems Level 2

SAFETY, CARDS & PLANT

- SMSTS - valid to April 2028
- CSCS Managers Card; ECS Electrical Site Manager
- EUSR Registration; United Utilities Safety Passport
- IPAF Scissor & Boom / MEWP
- Forklift Reach & Counterbalance
- CAT & Genny; Asbestos Awareness
- First Aid at Work

ADDITIONAL INFORMATION

Successful long-term vetting history. Eligible for utilities, infrastructure, nuclear-support and data-centre environments. Available across North West England, North Wales and neighbouring counties.
